

ERRATA

Through no fault of the authors, there are citation and reference errors in Sotres-Bayon F, Cain CK, LeDoux JE (2006): Brain mechanisms of fear extinction: historical perspectives on the contribution of prefrontal cortex. *Biological Psychiatry* 60:329-336. On page 333 the sentence "For a comprehensive review of treatment in clinical populations, see Foa et al (2006) in this issue." should read "For a comprehensive review of treatment in clinical populations, see Hermans et al (2006) and Davis et al (2006) in this issue." and Foa et al (2006) should not appear in the reference list. The sentence "For a comprehensive review of neural substrates of extinction in humans, see Phelps et al (2006), in this issue." should read "For a comprehensive review of neural substrates of extinction in humans, see Rauch et al (2006), in this issue." and Phelps et al (2006) should be not appear in the reference list. The following references were absent or incomplete:

There was an error in the Articles in Press version of O'Connor JA, Hasenkamp W, Horman BM, Muly EC, Hemby SE (2006): Region specific regulation of NR1 in rhesus monkeys following chronic antipsychotic drug administration. *Biol Psychiatry* 60: 657-660, which has been corrected in this issue. On page 1 of the Articles in Press version, available online from July 17, 2006 to publication of this issue, the sentence "Using a previously established protocol (Lidow et al 1997; Lidow and Goldman-Rakic 1994; Lidow and Goldman-Rakic 1997), haloperidol (0.21 mg/kg daily dose) or clozapine (5.2 mg/kg daily dose) were
