Publication Coordinator Rosa Garces
Technical Editor Rosemary McCandless
Editorial Assistant LaTonya Jones

Aims and Scope

This international rapid-publication journal, sponsored by the Society of Biological Psychiatry, covers the whole range of psychiatric neuroscience. Both basic and clinical contributions are encouraged from all disciplines and research areas relevant to the pathophysiology and treatment of major neuropsychiatric disorders. Full-length and Brief Reports of novel results, Case Reports and Correspondence of unusual significance, judged to be of high impact to the field are published, particularly those addressing genetic and environmental risk factors, neural circuitry, and neurochemistry, and important new therapeutic approaches. Concise Reviews, Neuroscience Perspectives, Editorials and Commentary, generally invited by the Editors, which focus on topics of current research and interest, are also rapidly published.

Founding Editor Joseph Wurtis

Editor Emeritus Wagner H. Bridger, M.D.
