

## ERRATA

---

In the May 1, 2006 issue of *Biological Psychiatry*, Volume 59, Issue 9, in the abstract and also the Efficacy section of the article “A Randomized, Placebo-Controlled Trial of OROS Methylphenidate in Adults with Attention-Deficit/Hyperactivity Disorder” by Biederman *et al.* (*Biol Psychiatry* 2006;59:829–835), it is reported

that 39% (N = 23) of placebo subjects were responders. It should have been reported as 39% (N = 29).
