

## ERRATA

---

In the online version of "Overweight and Obesity Affect Treatment Response in Major Depression" by Kloiber *et al.* that originally became available as an article-in-press on January 22, 2007, there were some errors in Table 3. The "(d2)" was mistakenly typeset next to "Divided attention," but should have been set next to "Selective attention" in the first column, first row. Also, in the third column, Standard devia-

tions data were erroneously reported instead of Standard errors. The table has since been corrected, and the correct version of Table 3 now appears in the article online, as well as in this print issue of *Biological Psychiatry* (Biol Psychiatry 2007;62:321-326).
