**Founding Editor**  
Joseph Wortis, M.D., 1969-1992

## Aims and Scope

This international rapid-publication journal is the official journal of the Society of Biological Psychiatry. It covers a broad range of topics in psychiatric neuroscience and therapeutics. Both basic and clinical contributions are encouraged from all disciplines and research areas relevant to the pathophysiology and treatment of major neuropsychiatric disorders. Novel results of original research, in Archival and Brief Report formats, Commentaries, and Correspondence judged to be of high impact to the field are published, particularly those addressing genetic and environmental risk factors, neural circuitry and neurochemistry, and important new therapeutic approaches. Concise Reviews and Editorials that focus on topics of current research and interest are also published rapidly.

## Editor Emeriti

Wagner H. Bridger, M.D., 1992-1997  
Richard C. Josiassen, Ph.D., 1997  
Dennis S. Charney, M.D., 1998-2006
