69TH ANNUAL SCIENTIFIC CONVENTION AND MEETING

- A9** 2014 President's Welcome
- 1S** Thursday Abstracts
- 135S** Friday Abstracts
- 275S** Saturday Abstracts
- 403S** Author Index

In honor of this year's annual meeting theme, "Accelerating Scientific Translation", the image on the cover is an artist's rendering of a not-yet-realized, but potential future research tool: one of a human receiving an optogenetic intervention. Whether optogenetics treatment will ever exist for humans is still undetermined, but its use as a research tool may lead to new insights into psychiatric disorders. © Rebecca Gelernter (www.nearbirdstudios.com).
