Aims and Scope

This international rapid-publication journal is the official journal of the Society of Biological Psychiatry. It covers a broad range of topics in psychiatric neuroscience and therapeutics. Both basic and clinical contributions are encouraged from all disciplines and research areas relevant to the pathophysiology and treatment of major neuropsychiatric disorders. Novel results of original research, in addition to Commentaries and Correspondence judged to be of high impact to the field are published, particularly those addressing genetic and environmental risk factors, neural circuitry and neurochemistry, and important new therapeutic approaches. Concise Reviews and Editorials that focus on topics of current research and interest are also published rapidly.

Published since 1969

Administrative Editor Carol A. Tamminga, MD
Managing Editor Rhiannon M. Bugno
Publication Coordinator Rosa Garces

Founding Editor
Joseph Wortis, MD, 1969-1992

Editor Emeriti
Wagner H. Bridger, MD, 1992-1997
Richard C. Josiassen, PhD, 1997
Dennis S. Charney, MD, 1998-2006
