

---

An error in the text been detected in the article “Local Gyrfication Index in Probands with Psychotic Disorders and Their First-Degree Relatives” by Nanda *et al.* (2014; 76:447-455). Specifically, on page 453, column 1, the sentence that begins on line 3 currently reads: “Psychotic bipolar disorder patients had

only one region of significant difference compared with control subjects.” It should, however, read: “Psychotic bipolar disorder patients had no regions of significant difference compared with control subjects.” This error was an oversight and no other portions of the paper are affected.
