

Erratum to: “The Role of Synaptic Cell Adhesion Molecules and Associated Scaffolding Proteins in Social Affiliative Behaviors,” by Taylor *et al.* (*Biol Psychiatry* 2020; 88:442–451); <https://doi.org/10.1016/j.biopsych.2020.02.012>.

The authors have identified multiple minor errors in the Supplement. The stated results were inaccurate for reference 11 on page 1, reference 18 on page 2, and reference 114 on page 10. The entry for “Shank2 (148)” was deleted in Table S2,

<https://doi.org/10.1016/j.biopsych.2020.06.009>

as references 7 and 148 were identical, causing this to be a redundant entry. Also in Table S2, the former entry for “Shank3 (10)” was updated because it cited the incorrect paper; this entry now cites new reference 36. Accordingly, other minor edits and reordering in the reference list became necessary. All of these corrections have now been made in the updated supplemental file that is now available for download with this article.

Erratum to: “Delineating the Shared Genetics Across the Mood Disorders Spectrum,” by Warrior (*Biol Psychiatry* 2020; 88:134–135); <https://doi.org/10.1016/j.biopsych.2020.04.017>.

The author has recognized a typographical error in the following statement: “In contrast, while BD II was strongly genetically correlated with BD I and schizoaffective disorder,

<https://doi.org/10.1016/j.biopsych.2020.07.002>

the genetic correlation between BD I and schizoaffective disorder was modest.” Specifically, reference to BD I and BD II was inadvertently reversed. The corrected line reads: “In contrast, while BD I was strongly genetically correlated with BD II and schizoaffective disorder, the genetic correlation between BD II and schizoaffective disorder was modest.”
