

Erratum to: “Major Depressive Disorder Is Associated With Differential Expression of Innate Immune and Neutrophil-Related Gene Networks in Peripheral Blood: A Quantitative Review of Whole-Genome Transcriptional Data From Case-Control Studies,” by Wittenberg *et al.* (*Biol Psychiatry* 2020; 88:625–637); <https://doi.org/10.1016/j.biopsych.2020.05.006>.

The authors discovered that a funding source was inadvertently excluded. Specifically, support for this work was also

provided by the Wellcome Trust-funded consortium for Neuroimmunology of Mood Disorders and Alzheimer’s Disease (NIMA). The newly corrected statement of funding support is as follows: “This work was supported by the National Institute of Health Cambridge Biomedical Research Centre (UK) and by the Wellcome Trust-funded consortium for Neuroimmunology of Mood Disorders and Alzheimer’s Disease (NIMA).” This error has been corrected in the final paginated version of this article.
